1. ABOUT THE REPORT

1.1 PROLOGUE

Ban Loong Holdings Group Limited and its subsidiaries (collectively referred to as the “Group” or “We”) are pleased to present the Environmental, Social and Governance (“ESG”) Report (the “ESG Report” or the “Report”), for the year ended 31 March 2023. This ESG Report is prepared in accordance with disclosure obligations under the “comply or explain” provisions contained in the “Environmental, Social and Governance Reporting Guide” (the “ESG Guide”) as set out in Appendix 27 to the Rules Governing the Listing Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). The purpose is to allow all stakeholders to learn more about the Group’s development direction, plans and performance in terms of operations and ESG. The Group is committed to enhancing its corporate social responsibility continuously, in order to have a better response to the sustainable needs of the ever-changing society.

1.2 SCOPE OF THE REPORT

The ESG Report covers the Group’s overall ESG performance and Key Performance Indicators (“KPIs”) for the period from 1 April 2022 to 31 March 2023 (the “Reporting Period” or the “Year”). A full index is attached to the last chapter of the report for readers to follow the ESG guidelines. The KPIs disclosed in the report are based on the performance of the Group’s main operating offices during the Year and cover the major environmental impacts resulting from the Group’s business operations.

1.3 REPORTING PRINCIPLES

The ESG report follows the reporting principles of “Materiality”, “Quantitative” and “Consistency”.

1. ABOUT THE REPORT

Materiality

Stakeholder engagement and materiality assessment were conducted for the determination of the content of the ESG Report. The Group has identified ESG-related issues, collected and reviewed the views of internal management and various stakeholders, assessed the relevance and materiality of the issues, and prepared and validated the information in the ESG Report. The ESG Report covered a comprehensive range of material ESG issues of concern to the Group's stakeholders.

Quantitative

The Group has disclosed qualitative environmental and social KPIs in the ESG Report. To enable stakeholders to have a full understanding of the Group's ESG performance, the standards, methodologies, references and conversion factors used to calculate the KPIs are described wherever appropriate.

Consistency

The Group uses consistent reporting and calculation methods, as far as practicable, to facilitate the comparability of ESG performance between years. The Group uses the number of employees to calculate the density of environmental KPIs. In case of any changes in methodologies, the Group will present and explain in detail in the corresponding sections.

1.4 STAKEHOLDER FEEDBACK

For more information on the Group's environmental, social and governance, please refer to the Group's website at www.0030hk.com. The Group values the opinions of stakeholders. If you have any questions or recommendations about the content or form of reporting of this report, you are welcome to contact the Group through the following methods:

Address: Room 2709 – 10, 27/F,
China Resources Building,
No. 26 Harbour Road, Wanchai,
Hong Kong

Tel: (+852) 2549 8222

2. ESG MANAGEMENT

2.1 BOARD STATEMENT

The Group believes that a sound ESG governance is crucial to enhance the value of our investments and bringing long-term returns to our stakeholders and the Group. In order to implement and improve the ESG management policy, the Group's Board of Directors (the "Board") is responsible for ESG management and supervision, establishing and reviewing the overall ESG vision, approach, strategy or initiative. Various communication channels have been established to promote the coordination and communication between various departments. Regarding ESG-related risk management, the Board monitors the risk evaluation process on sustainability and ESG-related issues, focus on the potential impacts of business operations on market trends, and seek for improvements in ESG strategy, in order to reduce the negative impacts on the business.

To collect the opinions of the Group's stakeholders on ESG issues, the Group has engaged a third-party ESG consultant in conducting a materiality assessment to identify issues that are likely to impact the business operation and our stakeholders, especially to the environmental and social aspects. The issues would be reviewed and prioritised, and those with high significance to the Group and stakeholders are considered as material. The Board has participated as a stakeholder and commented on the materiality assessment, and also reviewed and approved the material ESG issues identified by the ESG consultant.

In order to formulate and implement effective ESG measures, the Board regularly reviews the Group's ESG performance and the progress of achieving its goals. Effective communication channels have also been established among departments to ensure close cooperation. The Board adjusts the ESG management policy in response to policy trends to lead the ESG process of the entire group. The Board has formulated corresponding targets and indicators on important ESG-related issues and reviewed the plan and implementation of ESG-related work as well as related goals and indicators at regular meetings. The Group communicated with stakeholders on ESG progress especially through the Group's annual ESG report. The Board will continue to seek opportunities to improve ESG performance.

2. ESG MANAGEMENT

2.2 STAKEHOLDER ENGAGEMENT

The Group deeply understands the importance of close communication with stakeholders. The Group believes that the participation and opinions of stakeholders are crucial in formulating sustainable development strategies. We attach great importance to maintaining a close and good relationship with stakeholders, understanding and responding to the expectations and requirements of various stakeholders, and formulating different strategies to carry out improve. The following table illustrates the expectations and requirements of our major stakeholders and the ways we communicate with and respond to the stakeholders:

Stakeholder	Expectations and Requirements	Communication and Response	Measures
Government	<ul style="list-style-type: none"> - To comply with laws - Proper tax payment - Promote regional economic development and employment 	<ul style="list-style-type: none"> - On-site inspections and checks - Research and discussion through work conferences, work reports preparation and submission for approval - Public information disclosed in Stock Exchange website, such as: interim reports, annual reports and announcements - Company website 	<ul style="list-style-type: none"> - Operated, managed, paid taxes according to laws and regulations, strengthened safety management, accepted the government's supervision, inspection and evaluation, and actively undertook social responsibilities.
Shareholders and Investors	<ul style="list-style-type: none"> - Return on investment - Information disclosure and transparency - Protection of interests and fair treatment of shareholders - Business risk management 	<ul style="list-style-type: none"> - Annual general meeting and other shareholder meetings - Public information disclosed on Stock Exchange website, such as: interim reports, annual reports and announcements - Meeting with investors and analysts - Company website 	<ul style="list-style-type: none"> - Issued notices of general meeting and proposed resolutions according to regulations, disclosed company's information by publishing announcements/circulars and periodic reports in the Year. Disclosed company contact details on website and in reports and ensured all communication channels available and effective.
Employees	<ul style="list-style-type: none"> - Safeguard rights and interests of employees - Health and safety - Working environment - Career development opportunities - Self-actualisation 	<ul style="list-style-type: none"> - Regular meetings - Training, seminars and briefing sessions - Intranet and emails - Annual performance appraisal - Staff activities 	<ul style="list-style-type: none"> - Provided a healthy and safe working environment - Developed a fair mechanism for promotion.

2. ESG MANAGEMENT

Stakeholder	Expectations and Requirements	Communication and Response	Measures
Customers	<ul style="list-style-type: none"> – Safe and high-quality products and services – Stable relationship – Information transparency – Integrity – Business ethics 	<ul style="list-style-type: none"> – Company website, brochures, interim reports, annual report and announcements – Email and customer service hotline – Feedback forms – Regular meetings – Calling for feedback 	<ul style="list-style-type: none"> – Strengthened quality management to ensure stable service quality, and entered into long-term strategic cooperation agreements.
Suppliers/ Partners	<ul style="list-style-type: none"> – Long-term partnership – Honest cooperation – Fair and open – Information resources sharing – Risk reduction 	<ul style="list-style-type: none"> – Business meetings, supplier conferences, phone calls and interviews – Regular meetings – Review and assessment – Email, circulars and manual – Company website 	<ul style="list-style-type: none"> – Invited tenders publicly to select the best suppliers/partners, performed contracts obligation according to agreements, enhanced daily communication, and established long-term cooperation with quality suppliers/partners.
Horizontal/ Industry associations	<ul style="list-style-type: none"> – Experience sharing – Corporations – Fair competition 	<ul style="list-style-type: none"> – Industry conferences – Site visit 	<ul style="list-style-type: none"> – Stuck to fair play, cooperated with horizontal to realise win-win results, shared experiences and attended different seminars of the industry so as to promote sustainable development of the industry.
Market regulator	<ul style="list-style-type: none"> – Compliance with the law and regulations – Information disclosures 	<ul style="list-style-type: none"> – Information disclosure – Reports 	<ul style="list-style-type: none"> – Complied with regulatory requirements in a strict manner, disclosed and reported real information in a timely and accurate manner according to law.
Public and communities	<ul style="list-style-type: none"> – Community involvement – Social responsibilities – Employment promotion 	<ul style="list-style-type: none"> – Voluntary work – Charity and social investment 	<ul style="list-style-type: none"> – Gave priority to local people seeking jobs from the Company so as to promote community building and development, protected the communities' ecological environment, and provided timely compensation and assistance.

2. ESG MANAGEMENT

2.3 MATERIALITY ASSESSMENT

In order to develop ESG management policies effectively, the Group has conducted materiality assessments to identify ESG issues that are material to the business. The assessment is based on an internal stakeholder questionnaire, which was conducted with the assistance from the third-party ESG consultant to collect valuable opinions of various departments and units on ESG issues, with reference to the materiality map by well-known external organisations¹, the material issues related to the ESG of the Group were identified.

Aspect	Material Issues	Corresponding Section
Environment	Greenhouse gases emissions	"Emissions – GHG Emission"
Employment and Labour Practices	Employment Compliance	"Employment Practices", "Health and Safety" and "Labour Standards"
	Health and Safety	"Health and Safety"
	Remuneration and Benefits	"Employment Practices"
	Training and Development	"Development and Training"
Operational Compliance	Customer Privacy Protection and Data Safety	"Product Responsibility – Privacy and Intellectual Property Protection"
	Business ethics	"Anti-corruption"

¹ The materiality maps referenced in the materiality assessment are ESG industry Materiality Map from Morgan Stanley Capital International and Sustainability Accounting Standards Board Materiality Map from SASB

3. PROTECTING OUR ENVIRONMENT

3.1 ENVIRONMENTAL PRINCIPLES

The Group is committed to promoting green operations and taking the social responsibility of protecting the environment. For such purpose, the Group formulates and implements the “Environmental Protection Policy”. We had set up the environmental goals at Year 2021/2022 and the progress of the Year as follows:

Environmental Goals	Progress of the Year
For exhaust emissions, we are committed to reducing the use of vehicles and reducing petrol consumption.	Petrol consumption for the year was lower than previous years.
In order to reduce greenhouse gas emissions, we are committed to reducing energy consumption at all levels of business operations.	Decrease in office electricity consumption compared to previous years through promotion of energy saving and emission reduction in offices.
Implement waste reduction at source, strive to reduce waste generated during operation, and actively reuse and recycling.	Enhancement of employees’ awareness of waste reduction at source and resource conservation.
Committed to reducing waste of resources such as water, electricity and paper in daily operations.	Reduction in paper consumption compared to previous years through paperless implementation.
Strictly abide by relevant laws and regulations on environmental protection, and review environmental management systems and policies.	The Group was not aware of any material breaches of laws and regulations relating to environmental protection during the reporting period.

3.2 EMISSIONS

The Group’s major emissions are exhaust, waste and greenhouse gases (“GHG”), which came from the daily activities for office operations. In order to reduce the various types of emissions produced during our operations, we improve their management and ensure that the emissions comply with relevant statutory requirements including but not limited to the Air Pollution Control Ordinance and the Waste Disposal Ordinance of Hong Kong and the Atmospheric Pollution Prevention and Control Law of the People’s Republic of China and the Law of the People’s Republic of China on the Prevention and Control of Environment Pollution Caused by Solid Wastes of China.

i. Exhaust Emission

The Group’s pollutant emissions mainly come from the fuel used by vehicles. During the Reporting Period, the Group’s vehicles consumed approximately 3,948 liters of petrol. In order to reduce the pollutant emission, the details of the reduction measures as follows:

1. Encourage employees to use public transportation when going out for meetings or activities, use group vehicles only if necessary, and reduce the use of private cars.
2. Actively encourage employees to use walking instead of taking transportation when it comes to activities with close destinations.
3. Set up video conferences for both internal and external meetings, allow employees to hold online meetings with customers.
4. Maintain correct tyre pressure by regular inspections and inflation, so as to ensure the smooth operation of the vehicle and to reduce fuel consumption and exhaust emission.

3. PROTECTING OUR ENVIRONMENT

During the Reporting Period, emissions were as follows:

Type of Emission (Note 1)	Units	2022/2023
Nitrogen oxides	kg	5.57
Sulphur oxides	kg	0.06
Particulate matter	kg	0.41

Note:

- (1) The calculation and emission factors are based on “How to prepare an ESG report – Appendix 2: Reporting Guidance on Environmental KPIs” issued by the Stock Exchange (“Appendix 2”).

ii. GHG Emission

The Group’s main sources of GHG emissions are direct emissions from the use of vehicles, indirect emissions from electricity consumption in office operations and other indirect emissions from waste paper disposal. The Group is implementing feasible measures to achieve the goal of reducing greenhouse gas emissions.

During the Reporting Period, GHG emissions are as follows:

GHG Gases (Note 1)	Units	2022/2023
Total GHG emissions	tCO ₂ e	39.04
Scope 1: Direct emissions (Note 2)	tCO ₂ e	10.54
Scope 2: Energy indirect emissions (Note 3)	tCO ₂ e	22.72
Scope 3: Other indirect emissions (Note 4)	tCO ₂ e	5.78
GHG emissions intensity	tCO ₂ e/employee	1.70

Notes:

- (1) The calculation of GHG emissions is based on Appendix 2 and “Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purpose) in Hong Kong” issued by the Environmental Protection Department and Electrical and Mechanical Services Department of Hong Kong. The GHG inventory of the Group include carbon dioxide (CO₂), methane and nitrous oxide. All the GHG emissions data are presented in tonnes of CO₂ equivalent.
- (2) Scope 1 direct emissions include the daily consumption of vehicle fuels of the Group. The emission factors are based on Appendix 2.
- (3) Scope 2 indirect emissions include indirect GHG emissions generated by the purchased electricity of the Group. The emission factors are based on Hongkong Electric Company, Limited.
- (4) Scope 3 other indirect emissions include other indirect emissions occurring outside the Group, including waste paper disposal and business air travels. The emission factors of methane from waste paper disposal in landfills are based on Appendix 2 and the carbon emissions from business air travels are based on the International Civil Aviation Organisation Carbon Emission Calculator.

3. PROTECTING OUR ENVIRONMENT

iii. Waste and Wastewater

Due to the nature of the business, the Group does not generate hazardous waste during our operation. The Group's major wastes are non-hazardous wastes, which mainly consist of office paper and other household wastes.

The data of waste generated during the Year is as follows:

Waste		Units	2022/2023
Non-hazardous waste (Note 1)	Total amount	tonnes	1.92
	Recycled	tonnes	0.05
	Landfill	tonnes	1.87
	Intensity	tonnes/employee	0.08

Note:

(1) Non-hazardous waste is estimated based on the Group's daily office operations.

The Group places high attention to proper disposal of wastes and has clearly set out ways of office waste disposals in the "Environmental Protection Policy". It has established a waste sorting system for recycling and contacted contractors to recycle used toner cartridges from time to time to reduce wastes.

The Group is committed to reducing waste production and encourages employees to reuse stationery such as envelopes, binders, and file cards. The carboy for water in the office will be returned to the supplier after use, who will clean and sanitise the carboy for recycling. At the same time, we reduce the use of disposable and non-recyclable products, such as disposable water cups and wooden chopsticks with non-disposable items. In addition, the Group evaluate the usage of material to avoid overstock, so as to reduce waste production from the source. Moreover, the Group has adopted a digital operation model to centralise the handling of documents and regularly convey environmental protection messages to employees. The office sets up printing permission to conduct statistics and adjustments on paper usage to improve resource utilisation.

For the offices, the property management company is responsible for the water supply and drainage. The Group takes measures to reduce water consumption. All sewage is discharged to the sewage treatment plant through the local pipe network.

3. PROTECTING OUR ENVIRONMENT

3.3 USE OF RESOURCES

The Group highly focuses on the efficient use of resources in daily operations. During the Reporting Period, the Group has complied with the relevant laws and regulations on energy use including but not limited to the Water Pollution Control Ordinance of Hong Kong and the Environmental Protection Law of the People's Republic of China and the Water Pollution Prevention and Control Law of the People's Republic of China of China.

i. Energy

The Group's energy use mainly includes direct energy use from the petrol used by vehicles, and indirect energy use from purchased electricity. The Group is aware of the importance of saving electricity and energy. In order to strengthen the awareness of environmental protection and energy conservation of employees and actively reduce the daily electricity consumption in the office, the Group sets various strategies as follows:

Energy-saving Measures

Office operation

- Use of energy efficient electronic equipment such as lightings, printers and air conditioners
- Place reminders of "For electricity saving, please switch off the light when leaving" at prominent places in the office

Air conditioning system

- Switch off air-conditioning when rooms are not in use
- Clean the filters/fan coil units regularly
- Adopt Central Control and Monitoring System (CCMS) or Building Management System (BMS)
- Apply anti-ultraviolet films on windows to reduce heat gain

Lighting system

- Separate light switches for different light zones
- De-lamping for areas with higher-than-required lighting level
- Adopt energy efficient lighting (e.g. T5 fluorescent lamps and LED)

During the Reporting Period, total energy consumption was as follows:

Type of Energy	Units	2022/2023
Total energy consumption	MWh	70.26
Direct energy consumption (Note 1)	MWh	38.26
Indirect energy consumption (Note 2)	MWh	32.00
Energy consumption intensity	MWh/employee	3.05

Notes:

- (1) The direct energy consumption is calculated based on the actual consumption amount of vehicle fuels consumption. The conversion factors of fuel and energy units are adopted from the "Energy Statistics Manual" issued by the International Energy Agency.
- (2) The indirect energy consumption is calculated based on the actual consumption amount of purchased electricity by the Group for daily operations.

3. PROTECTING OUR ENVIRONMENT

ii. Water

Based on the nature of the business, the water resources utilised by the Group are mainly domestic water for daily office operations. Since the property management company is responsible for the water consumption of the office, no water consumption data was available during the Year. No problem in obtaining suitable water sources were encountered. The Group has continued to promote water conservation and environmental protection by implementing a series of water-saving programs to significantly reduce the amount of water used in daily life. Meanwhile, the Group has made continuous efforts to reduce water consumption. For example, the Group educates its employees on water conservation, displays water conservation postages in prominent places, and immediately reports to the property management company to repair dripping taps when they are damaged.

iii. Paper and Packaging Materials

The Group does not engage in manufacturing process and does not use any packaging materials. During the Reporting Period, total office paper consumption was around 249 kg. The Group has adopted environmental protection measures to reduce office paper as much as possible. Staff are encouraged to reuse the paper or use both side of the paper. The backs of single-sided paper are used for printing or as scratch paper. Computers and printers are also set to double-sided printing and ink saving. We encourage our employees to minimise the use of paper by using the appropriate font size/shrink mode to minimise pages. Meanwhile, the Group uses electronic communication technology to transfer information to reduce paper consumption, and Internet fax is used to screen out junk fax. We also collect paper documents such as wastepaper, posters, letters and envelopes with the recycle bin.

3.4 THE ENVIRONMENT AND NATURAL RESOURCES

The Group is committed to promoting sustainable environmental development, and focusing on the impact of its business on the environment and natural resources. The Group's business operations do not involve soil pollution, soil erosion or biodiversity conservation.

The Group strives to integrate various environmental protection measures into its internal management policies to reduce the impact on the environment and natural resources, and to enhance environmental sustainability. For example, the "Environmental Protection Policy" emphasises the protection of scarce natural resources and efforts to reduce the use of resources, as well as the cultivation of an environmental protection culture within the Group and the enhancement of employees' awareness of environmental protection.

To ensure that employees implement measures for saving resource, the Group has formulated an "Office Checklist" for the administrative management department to examine items include measures to conserve water, conserve resources, and reuse paper and other materials. In case of non-conformity, the checker must propose specific corrective measures.

3. PROTECTING OUR ENVIRONMENT

3.5 RESPONDING TO CLIMATE CHANGE

Climate change has become a major challenge worldwide today. As the extreme weather events are getting more serious, the Group highly concerned about the impacts of climate change. In order to prepare for and respond to extreme weather events and natural disasters in the future, the Group has identified, prioritised and evaluated the potential climate related risks to the business, so as to determine the level of risk resilience, and actively investigate relevant risk management measures.

In terms of physical risks, extreme weather conditions caused by climate change could lead to potential increases in operating costs and negative impacts on employee safety. The Group recognised that building resilience to climate change is critical to our business. The Group has comprehensive insurance coverage for property and other assets that are susceptible to damage from extreme weather or other physical impacts caused by climate change. For the safety of employees, the Group has established a crisis and emergency management plan and special working arrangements in the "Staff Handbook". The Group regularly reviews the special working arrangements for adverse weather conditions such as typhoons or rainstorms, and continues to enhance the staff's ability to cope with such conditions in order to ensure safety and maintain smooth operation of our daily business.

The Group has identified several transition risks, such as market risks that the corporate products will be replaced by low-carbon commodities and shifts in consumer preferences. As consumers' expectations for existing products increase, the Group's operating costs for investment in technology development increase. In addition, the Group faces the risk that existing products will encounter tightening obligation and requirements and results in increase in operating costs (such as increased legal liability and compliance costs).

To mitigate the negative impact of climate change on our business in the future, the Group closely monitors international climate governance trends and the relevant policies and regulations relating to our business operations, and identifies, evaluates and monitors various potential climate-related risks and opportunities on a regular basis.

4. EMPLOYMENT AND LABOUR PRACTICES

4.1 EMPLOYMENT PRACTICES

The Group regards employees as the cornerstone of its corporate operation and development. We attaches great importance to the training and welfare of employees and is committed to providing a working environment with job satisfaction. The Group provides competitive remuneration and sound promotion opportunities to facilitate career development of employees. Meanwhile, the Group has adopted a series of policy measures relating to employment system, occupational safety and health, trainings as well as labour standards, with a view to achieving win-win situation between employees and employers.

The Group aims to attract and retain talents, ensures a safe and equal working environment for employees, provides development opportunities and promotes employees' health and wellbeing. The Group has formulated the "Staff Handbook" according to relevant labour regulations, covering the Group's remuneration and dismissal, recruitment and promotion, working hours, statutory holidays, social security, and standards of other rights and benefits. The Group strictly complied with the labour laws and regulations like "Employment Ordinance" of Hong Kong, in relation to employment and equal opportunities.

During the Reporting Period, the Group strictly complied with the labour laws and regulations of Hong Kong, and there were no employment-related violations that had a significant impact on the Group. As at 31 March 2023, the total number of employees² is 23. The distribution of employee as follows:

Employment Indicators (Number of Employees (Proportion))		2022/2023
By gender		
Male		23 (62%)
Female		14 (38%)
By age group		
Below 30		4 (11%)
30 – 50		27 (73%)
Above 50		6 (16%)
By geographical regions		
Hong Kong		23 (62%)
Mainland China		5 (14%)
Southeast Asia (Thailand)		1 (3%)
East Asia (Japan & Korea)		3 (8%)
North America (Canada & USA)		2 (5%)
Western Europe		3 (8%)
By employment type		
Full-time		32 (86%)
Part-time		5 (14%)

² The total number of employees covers the entire Group, including employees in Hong Kong, Mainland China, Thailand, Japan, Korea, Canada, the United States and Western Europe.

4. EMPLOYMENT AND LABOUR PRACTICES

The total employee turnover rate³ of the Group during the Year was 63%, and the employee turnover rate by categories is as follow:

Turnover Rate Indicators	2022/2023
By gender	
Male	63%
Female	61%
By age group	
Below 30	114%
30 – 50	45%
Above 50	82%
By geographical region	
Hong Kong	80%
Mainland China	0%
Southeast Asia (Thailand)	0%
East Asia (Japan & Korea)	0%
North America (Canada & USA)	0%
Western Europe	0%

ii. Talent Recruitment and Retention

Employees are the core assets to maintain corporate competitiveness, and the key to corporate success. The Group provides a fair and impartial talent selection system and continuously improves the system to recruit talents. The Group has formulated a recruitment plan and filled job vacancies based on the principle of “internal staff superior to external candidates” in order to offer internal promotion opportunities to existing employees. The Group recruits external candidates through the recruitment website, job market, headhunting companies and employee’s referral. The Group ensures that the process is fair, open and transparent, and selects candidates depending on objective factors such as candidates’ working experience, skills, academic background, communication skills, and personal qualities.

The Group adheres to the principle of employing talents with both ability and moral integrity, and regards morality, knowledge, ability and performance as the main evaluation criteria, so as to put talents at suitable positions and retain talents. The Group makes appropriate remuneration adjustment annually based on staff performance to reduce talent loss.

³ The total staff turnover rate covers staff data for the entire Group, including employees in Hong Kong, Mainland China, Thailand, Japan, Korea, Canada, the United States and Western Europe.

4. EMPLOYMENT AND LABOUR PRACTICES

iii. Remuneration and Benefits

We offer reasonable and competitive salary and benefits to staff. Employees are awarded salary adjustment and promotion based on their job performance, as well progress achievement and the results of performance appraisal. We make timely contribution to social insurances (i.e., pension, medical insurance, unemployment insurance, maternity insurance, and occupational injury insurance) and the housing fund, mandatory provident fund and employees' compensation insurance in strict accordance with relevant regulations of location we operate including but not limited to the Hong Kong Employment Ordinance (Cap. 57 of the Laws of Hong Kong), the Mandatory Provident Fund Schemes Ordinance (Cap. 485 of the Laws of Hong Kong) and the Employees' Compensation Ordinance (Cap. 282 of the Laws of Hong Kong), Labor Law of the People's Republic of China, Fair Labour Standards Act of United States of America, Canada Labour Code, Labour Protection Act of Thailand, Labor Standards Act of Japan and Labor Standards Act of Korea. Apart from basic statutory holidays, wedding and funeral leave, maternity leave, work-related injury leave, annual leave, family planning leave and paternity leave, employees are also entitled to other staff benefits including luncheon and transportation allowances. These benefits boost employees' sense of belonging to the Company, create good working atmosphere and enhance corporate cohesion.

In addition, the Group organises different recreational activities, such as monthly birthday parties and annual dinners, in order to enhance cultural exchanges and enrich the lives of employees. Meanwhile, all employees can feel the warmth of the company to achieve unity and cohesion of the company.

Birthday Party for Staff

4. EMPLOYMENT AND LABOUR PRACTICES

iv. Equal Opportunity and Diversity

As a diversified enterprise, the Group strives to create a fair, diversified and harmonious working environment for employees and protect them from discrimination and harassment. The Group formulates employment policies in strict accordance with relevant regulations of location we operate including but not limited to Employment Ordinance, Sex Discrimination Ordinance, Disability Discrimination Ordinance, Family Status Discrimination Ordinance and Race Discrimination Ordinance of Hong Kong and Labor Law of the People's Republic of China, and Americans with Disabilities Act of United States of America to provide equal opportunities in respect of recruitment, training, promotion, job transfer, remuneration, benefits, and termination of contracts. These equal employment opportunities are not affected by age, gender, physical conditions, marital status, family status, race, color, nationality, religion, political connection or sexual orientation. The Group formulates policies addressing "Promotion, Equal Opportunities, Diversity and Antidiscrimination" to make sure every staff being treated fairly in terms of recruitment process, remuneration and benefits, training opportunities, working arrangement, promotion and disciplinary punishment.

The Group also places high value on female employees' career development by ensuring that they have equal promotion opportunities as male employees. Female employees are entitled to basic salary and their employment contracts will not be released or terminated, without cause, during their pregnancy, maternity leave or breastfeeding period. Our office in Thailand also employs LGBTQ⁴ colleagues as a practical demonstration of the Group's diversity and inclusion. We will continue to ensure that no one is subjected to prejudice, discrimination or differential treatment, regardless of age, gender, physical condition, marital status, family status, race, color, nationality, religion, political affiliation or sexual orientation. We are committed to building an equal and friendly office environment.

v. Dismissal Policy

With regards to the policies relating to dismissal of employees, if an employee is committed serious misconduct and fails to improve in spite of repeated warnings, his/her supervisor and the management of the Group will have a thorough internal discussion and allow the employee to answer and explain before the dismissal is announced. The reasons for the dismissal will be conveyed to the employee clearly. The dismissal procedure must be in accordance with applicable laws and regulations as well.

vi. Staff Communication

We appreciate the significance of communication with and care for our employees. We believe that maintaining a close relationship with our staff allows us to better understand their needs. Besides, orientation with introduction of corporate system, culture and other information would be conveyed to employee when they are on board. The Group has also established relevant personnel management system and reporting mechanism management system.

⁴ LGBTQ covers people who are lesbian, gay, bisexual, transgender, queer, intersex, asexual, and other non-normative sexual orientations, gender identities, and gender expressions not mentioned above.

4. EMPLOYMENT AND LABOUR PRACTICES

vii. Working Hours and Rest Periods

The Group has formulated its policy based on relevant regulations of location we operate including but not limited to Employment Ordinance of Hong Kong and Labor Law of the People's Republic of China, Fair Labour Standards Act of United States of America, Canada Labour Code, Labour Protection Act of Thailand, Labor Standards Act of Japan and Labor Standards Act of Korea and Directive on Working Time of European Union to determine working hours and rest periods for employees. The Group would compensate those who work overtime with extra pay or additional days off.

4.2 HEALTH AND SAFETY

The Group attaches high attention to the health and welfare of each and every employee. The Group has established and implemented a "Health and Safety System", striving to build a healthy and safe working environment for our employees.

Due to our business nature, the operation of the Group mainly involves clerical work and no position has been identified as having high safety risks. However, the Group understands that our staff spend most of the time on computer work, therefore we plan to enhance education in relation to office health and safety for employees, such as promoting safety use of office equipment and correct working postures to reduce the possibility of injury and occupational diseases.

In the view of the outbreak of COVID-19, a series of precautionary measures have been adopted by the Group according to the requirements of the government, including work-from-home arrangement, providing masks, rapid antigen testkit and antiseptic handrub to staff, encouraging staff and visitors to take body temperature and sterilise hands before entering into working area, encouraging staff and visitors to wear masks during working hour and sterilising the working area from time to time. When an employee is infected with COVID-19, the Group will arrange for the employee to leave the office area immediately and go to a designated location for isolation until a negative test result is obtained. Only then will the employee be allowed to return to work, to ensure the safety and health of the employee.

The Group encourages the occupational health examination before, after and during their induction for early detection of latent illness and timely medical treatments. Besides, for any staff suffering from infectious diseases, the Group will timely allow sick leaves for him/her to receive proper medical treatment and arrange segregation of relevant departments as well as vaccination for staff who have insufficient antibodies. First aid kits are also available in the office and labour protective equipment is also provided.

During the previous three years (including the Reporting Period), there was no accident of work-related injuries/fatalities and no lost days due to work injury recorded by the Group. The Group has no violation of the laws and regulations regarding the provision of safe working environment during the Reporting Period.

4.3 DEVELOPMENT AND TRAINING

The Group values the continuous development of staff and strives to enable our staff to grow alongside with the Group. The Group has established a comprehensive training system, which sets out the administrative duties of the officers of training teams under each department and the related policies, and provides corresponding learning and training courses for employees, thus allowing continuous updating of job knowledge and skills of employees. We also provide regular internal training on a variety of topics to deepen our staff's understanding of the Group's business and the operation of each department, to facilitate cross-departmental cooperation, and to give our staff a broader perspective on career planning and personal development.

Internal Training for Staff

In addition to the internal training and the inspections and assessments afterwards, the Group also encourages and provides subsidies to employees to participate training courses held by other institutions in a compensated way, so as to enhance job-required knowledge and enrich their skills. In accordance with "Staff Handbook", the Group will provide training subsidy to eligible staff at a minimum of 30% of the total amount and one annual subsidy of up to \$3,000 for professional qualification fees for staff. Besides, the "Staff Handbook" sets out training and development policies for newcomers, including the arrangements and contents of trainings, in order to help them quickly learn about job-required knowledge and adapt to the working environment. The licensed staff should complete their continuing professional development program under professional requirements and provide the relevant certificates to the Company. Trainings have covered a variety of topics in order to cater the needs for employees from different departments. The employee training data for the Year are as follows:

4. EMPLOYMENT AND LABOUR PRACTICES

Training Indicators ⁵	2022/2023
Average number of hours of training (percentage of employees trained)	12 (100%)
By Gender	
Male	13 (100%)
Female	10 (100%)
By employee category	
Senior	19 (100%)
Middle	13 (100%)
Junior	8 (100%)

In order to evaluate employees' working performance and potential in an efficient way, the Group has established a fair and comprehensive competition and promotion environment as well as to motivate our staff to enhance their working quality and capability. Staff can apply for internal transfer within the Group according to their own personal development needs.

4.4 LABOUR STANDARDS

The Group strictly complies with the Labour Law and tolerates no child labour or forced and compulsory labour allows no employment of child labour or forced and compulsory labour which is prohibited by international standards and relevant regulations. Candidates are required to present identity proof for verification to prevent child labour recruitment. In the event that there is any mistakenly-hired child labour, the Group will immediately suspend his/her work, inform his/her parents or legal guardians and return him/her to his/her residence, and bear all the costs incurred.

The Group bans the employment of forced labour in any ways and ensure all job duties are in compliance with labour contracts. It is clearly stated in the labour contracts that employee have the right to refuse any dangerous work arrangement. Our staff can immediately terminate the labour contract and obtain economic compensations if they are forced to perform such job duties by means of violence, threats or illegal restrictions on personal freedom. The Group will never force employees to work overtime. The Group would compensate those who work overtime with extra pay or additional days off. If labour disputes are found, employees can also reflect and put on record with the Group's Human Resources Department or report to the management through the reporting mechanism management system.

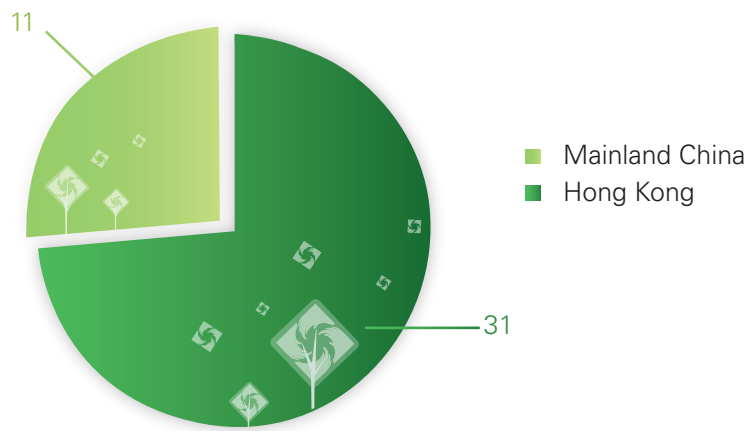

During the Reporting Period, no non-compliance regarding child labour, forced or compulsory labour has been recorded by the Group in its operation.

⁵ The training data covers the entire Group, including employees in Hong Kong, Mainland China, Thailand, Japan, Korea, Canada, the United States and Western Europe.

5.1 SUPPLY CHAIN MANAGEMENT

The Group believes that establishing sustainable supply chain and facilitating interaction and communication with suppliers and banks could improve confidence of customers and other stakeholders on the Group. Therefore, the Group only maintains long-term cooperative relationships with logistics and banks with good creditworthiness, sound goodwill, quality products and services, good track record and eligibility. During the Year, the Group had a total of 42 major suppliers⁶ to meet the demand for product supply. The geographical distribution of the major suppliers is as follows:

Number of Major Suppliers by Geographical Region

Focusing on establishing close cooperation relationships with suppliers, the Group has been working together with them to reduce impacts on the environment from production processes while ensuring the quality of service to customers. The Group takes the environmental, social and governance policies into consideration when managing all the suppliers. The Group will cease cooperation with suppliers which fail to meet its requirements. During the Reporting Period, there was no supplier which failed to meet such requirements. Supplier Management Measures of the Group include the following:

1. Suppliers' ESG policies, including emissions, use of resources, environmental and natural resources, health and safety, staff development and training, the prevention of child labour, product responsibility and anti-corruption.
2. To conduct continuous regular quality inspection.
3. To conduct unscheduled quality inspection.
4. To protect product supply and reduce risks through decentralised procurement.
5. To formulate acceptance criteria and procedures, which are detailed in the procurement contract, for each type of products.

⁶ Data of suppliers covers only the Group's operations in Hong Kong and Mainland China.

5. OPERATION MANAGEMENT

5.2 PRODUCT RESPONSIBILITY

i. Product Responsibility

Providing efficient and high-quality services to customers has always been the utmost concern for the Group. The Group's objective is that customers have confidence in our services and they are provided with sufficient information to make informed choices. To improve service quality of the Group, we conduct site visits and regular visits in order to have an in-depth understanding of actual demands and development targets of customers. By establishing long-term and good cooperation with customers, we have efficiently supported the economic development in the regions of operation and indirectly facilitated employment in those regions. Meanwhile, the Group has proactively acquired customer feedback, such as feedback by phone, so as to ensure customers' opinions are efficiently collected and handled.

Except for the pre-market product selection and supply chain management, we classify aftermarket incidents which jeopardise public health and safety by their actual condition into ordinary, material and serious rankings. Based on the rankings, the responsible officers of the Group of each functional departments at various levels are required to respond timely so as to mitigate the hazards and risks to the social communities.

Rankings of product liability incidents	Allocation of responsibility by positions
Ordinary	To be handled under the authorisation and instruction of the person in charge of the relevant business department
Material	To be handled jointly by the person in charge of the relevant business department and the Group management
Serious	To be handled by joint team formed by the Group management and insurance company

ii. Quality Control

The Group cares about the health and safety of customers, so performance of product liability in all aspects is of vital importance. As to edible oil, the Group would examine Business License and relevant regulatory supporting documents of the finished product suppliers or raw material producers when selecting supply goods in order to ensure the health and product safety of customers and the public.

Regarding the product quality, the Group selects only suppliers which deliver high-quality and authentic products. We evaluate the supplier quality through their audit reports, product quality and the effectiveness of the quality assurance system, etc., and sign agreements with them that include requirements for quality assurance. For those suppliers with repeated quality issues, audits will be conducted to evaluate the overall quality system of the supplier and we will put forward the requirements for improvement within a set deadline to ensure the quality of the products. As each product has different quality control standards, the Group has strict quality inspection procedures to ensure that the products meet the stringent requirements.

If the clients have suspicion on the quality of the commodities products, the Sales Management Department would assist the clients to investigate and coordinate with the suppliers. To ensure the quality of products, the Group has developed an exchange and return process. Product returns are mainly divided into quality reasons and non-quality reasons categories. Through strict examination and approval, products that are in line with the categories will be exchanged or returned after the completion of identification to protect the health and safety of customers. The returned products that fail to meet the quality requirements will be recycled, and the finished products confirmed to be deteriorated or unqualified will be destroyed and discarded. For products returned for quality reasons, the group will analyze comprehensively to determine whether other batch number products are involved and assess whether recall and return of products with batch number involved will be required.

The Group complies with the provisions concerning product liability as set out under Product Quality Law of the People's Republic of China, Administrative Regulations of Shenzhen Special Economic Zone on Product Quality, Labour Standards Act of Thailand, Japan and Korea and the Directive on Liability for Defective Products of European Union and other laws and regulations. During the Reporting Period, the Group had not identified any non-compliance of laws and regulations in relation to product liability (including customers' health, safety, advertising, labelling and customers' privacy-related matters) and any recalls of products for safety and health reasons. The Group had not received any complaint in relation to product or service and had not identified any case in relation to leakage, theft or loss of customers' information.

iii. Privacy and Intellectual Property Protection

The Group takes privacy issues of our clients, internal employees, data, and external partners and suppliers very seriously. We have established confidentiality guidelines in order to demonstrate our firm commitment to privacy issue.

The Group handles significant amount of data involving third parties. The Group upholds a belief that information security and privacy are key principles for operation. The Group requires all employees to sign an employee confidentiality commitment and agree to their responsibility and obligation regarding the protection and non-disclosure of customer data. In addition, information can only be used in authorised business activities. Employees disclosing such information to other parties is considered as data theft. Related employees shall bear corresponding responsibility.

During the Reporting Period, there were no noted case of violation of relevant laws or regulations regarding privacy protection and intellectual property rights.

5. OPERATION MANAGEMENT

5.3 ANTI-CORRUPTION

The Group is committed to upholding ethics and integrity during the operation process. No form of corruption or bribery is tolerated. Sound judgements for transactions with customers, suppliers, contractors, job seekers, colleagues or any other third party should be ensured. All applicable laws and regulations shall be duly complied with so as to always maintain the highest standard of integrity.

The Group has provided anti-corruption training to strengthen the ethics and integrity governance of its staff teams, such as reading the legislation and relevant compliance requirements before the commencement of staff recreational activities to raise prevention awareness of corruption risks and to enhance the professional conduct of staff and learn the anti-corruption and integrity standards to be complied with when contacting with public officials. In addition, this system also prohibits staffs from accepting any expensive offerings such as monetary gift, credit card and cash voucher, etc. Furthermore, the "Staff Handbook" of the Group also sets forth the basic principles of anti-corruption, and states that employees should make appropriate adjustment in terms of benefits, for example, employees are not supposed to make any personal gain through the exercise of their official duties or they are supposed to avoid arousing suspicion and report to relevant authorities when dealing with business involving in their relatives' benefits in accordance with regulations.

During the Reporting Period, the Group rigidly abided by laws and regulations in respect of anti-corruption, bribery, extortion, fraud and money laundering, such as the China's Efforts to Combat Corruption and Build a Clean Government, Prevention of Bribery Ordinance of Hong Kong, Foreign Corrupt Practices Act of United States of America, Corruption of Foreign Public Officials Act of Canada, Anti-Corruption

Act of Thailand, Japan Penal Code and Directive on the Fight against Fraud of European Union. With reference to the aforesaid laws and regulations, the Company has developed and issued the "Anti-Corruption Policy" guidelines to its employees in relation to the giving and receiving of gifts, hospitality and gratuities and the related reporting and approval procedures. The Group strives to ensure that employees are familiar with these policies and the control procedures relating to their duties. Employees are required to receive regular anti-corruption and internal control training to enhance their knowledge and understanding of the Code of Conduct and related policies. The Company participates in and encourages its employees to support charitable activities, subject to compliance with relevant laws and regulations and to ensure that charitable donations do not influence any business decisions and that there is no conflict of interest between an employee's membership of a society and his or her status as an employee. Employees must not represent or purport to represent the Company in any social or political forum or use the Company's brand, time or assets to further the interests of any social or political party or group.

In order to prevent corruption, the Group has formulated and implemented "Reporting Mechanism Management System". All employees can report through mailboxes and emails. The Group will make every effort to treat all reports in a strictly confidential manner. The identity of the reporting and complaining employee is not allowed to be disclosed without his/her consent, unless the Group is legally obliged to disclose the employee's identity and other information. In order to foster a culture of openness, responsibility and integrity, the Group will handle or discipline employees who violate disciplinary regulations, we will report to the applicable departments. During the Reporting Period, there is no concluded legal cases regarding corrupt practices.

6. COMMUNITY INVESTMENT

The Group deeply realised the importance of returning to the society and spared no effort in fulfilling the corporate social responsibility. The Group pays attention to the needs of vulnerable groups and special groups in different societies, and spares no effort to help the community to contribute to society. The Group provides work opportunities for people with disabilities and gives priority to them for employment, as well as giving priority to suppliers participating such initiatives. We encourages our staff to participate in community activities and contribute to a harmonious society and sustainable development through different forms.

Up to the date of this report, the Group focuses on contributing to the Yunnan clansmen and the field of Chinese medicine. During the year, the Group sponsored Yunnan Baiyao toothpaste, Yunnan Fengqing Dianhong Kung Fu Red Tea and electric toothbrushes to the Yunnan Clansmen Association in Hong Kong to support and care for Yunnan clansmen in Hong Kong. The Group also placed advertisements on buses to promote Yunnan Baiyao, a century-old white medicine and a national treasure, and to promote the cultural heritage of Chinese medicine and assist in the internationalisation of Chinese medicine products. Looking forward, the Group will continue to care for the needs of Yunnan clansmen and strive to promote the valuable culture of Chinese medicine.

Bus Promotion of Chinese Medicine Culture

7. APPENDIX: CONTENT INDEX OF “ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORTING GUIDE”

Aspects	Summaries	Sections	Page No./ Explanation
A. Environment			
A1: Emissions			
General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.	Environmental Principle; Emission	8-10
KPI A1.1	The types of emissions and respective emissions data.	Emission	8-10
KPI A1.2	Direct (Scope 1) and energy indirect (Scope 2) greenhouse gas emissions and intensity.	Emission	9
KPI A1.3	Total hazardous waste produced and intensity.	Emission	10
KPI A1.4	Total non-hazardous waste produced and intensity.	Emission	10
KPI A1.5	Description of emissions target(s) set and steps taken to achieve them.	Environmental Principle; Emission	8-10
KPI A1.6	Description of how hazardous and non-hazardous wastes are handled, and a description of reduction target(s) set and steps taken to achieve them.	Environmental Principle; Emission	8-10
A2: Use of Resources			
General Disclosure	Policies on the efficient use of resources, including energy, water and other raw materials.	Environmental Principle; Use of Resources	8,11-12
KPI A2.1	Direct and/or indirect energy consumption by type in total and intensity.	Use of Resources	11-12
KPI A2.2	Water consumption in total and intensity.	Use of Resources	11-12
KPI A2.3	Description of energy use efficiency target(s) set and steps taken to achieve them.	Environmental Principle; Use of Resources	8,11-12
KPI A2.4	Description of whether there is any issue in sourcing water that is fit for purpose, water efficiency target(s) set and steps taken to achieve them.	Environmental Principle; Use of Resources	8,11-12
KPI A2.5	Total packaging material used for finished products and, if applicable, with reference to per unit produced.	Use of Resources	N/A
